EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Morgan S. Heller, II (reg. No. 44,756) on 12-9-2005.

The application has been amended as follows:

Claims 1-17, 31-41 and 63-81 have been cancelled, for being directed to a non-elected invention(s).

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of an electrovariable optic having a plurality of focal configurations, and/or the system utilizing the electrovariable optic having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including the reasons for indicating allowability given in the office action mailed on 5-17-2005, at page 3, paragraph 6. Therefore, in light of the Examiner's amendment and reasons given for

allowance, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
